Flexi-Drive S2S
Modular SSD storage solution with 2.5" format

With the Flexi-Drive S2S we introduce a flexible adjustable memory solution.

Simply insert the desired number of SDHC cards (max. 6) into the Flexi-Drive's slots. The card's individual memory capacities merge into one and are available as a single drive then.

Benefit from this flexible, convenient memory solution that can be used as a normal 2.5" SATA HDD providing the advantages of a SSD: no noise emission, low power consumption and shock resistance.

Features:
- Fast modular SSD storage solution
- Memory size flexibly adaptable via SDHC memory cards (SLC/MLC)
- SATA interface (SATA I and II)
- 2.5" format
- Zero noise emission, low power consumption, shock resistance
- No drivers or software required

Specifications:
- Use up to 6 SDHC cards as RAID0
- 6 slots for SDHC cards (4-32 GB)
- Supports SDHC cards only
- Flexible memory capacity
- Dimensions: 70 mm x 100 mm x 9 mm (W x L x H)

PU: 1
